

TechnoTraining, Inc.

**Providing Global Training and Consulting Service Resources in the fields
of Technology & Professional Development Skills**

Company Prospectus

Revised: January 2018

Company Overview

TechnoTraining, Inc. is a leading Human Capital Delivery Organization. Our services include Technology and Professional Development Skills training and consulting services for our global clients.

We have successfully delivered outstanding results to both our government and commercial clients since 1999. Our initial offering was focused on the planning and delivery of technology training and soft skills training. As our company grew over the years we realized that a great deal of our clients wanted us to be able to deliver to them additional services in other parts of their businesses. Today we offer a full range of services that include project management, management consulting, leadership training and coaching, sales team coaching, negotiation training and coaching, curriculum development, and instructor selection and preparation. All of our services can be provided in your environment or at external facilities.

Technical Skills Instruction Categories include: Business Intelligence & Data Warehousing, Engineering, Manufacturing, Networking, Program & Application Development, Network Security, System Administration, System Architecture, Business Process & Integration Management, WebSphere Administration & Programming, etc.

Our most commonly requested technology services work comes from the following areas:

- Cisco Certified and Non-Certified Courses
- Citrix Certified Courses
- CompTIA (A+, Network+, Security +, CASP, HIT, etc.)
- Java Courses
- Lotus Notes Certified Courses
- Microsoft Certified and Non-Certified Courses
- Network Security Courses (CISA, CISSP, CEH, CHFI, etc.)

We additionally support requests in a wide area of technology training and consulting needs including C/C++, CIW, Crystal Reports, HP, IBM, ITIL, Java Script, Linux, Oracle, Perl, Portal, PowerBuilder, Rational, Security Certified Program, Solaris, Unix, and WebSphere, to name a few.

Some of the **Professional Development Skills Instructional Categories** include: Health & Safety Certification Training, Mechanical & Industrial Training Courses, Environmental Certification Courses, Consulting Methods, Finance, Marketing, Personal & Professional Skills Enhancement, Project Management (PMP), Team Building, Leadership Training, Sales Training, Project Rollouts, Negotiation Workshops, etc.

Enclosure (2) provides an expanded sample listing of courses we can support.

The fundamental principles upon which we base our business include:

1. Quality Instructors and Subject Matter Experts
2. Value Based Fees
3. Knowledgeable Staff
4. Dedicated Service
5. Reliable and Responsive Service
6. Facility Services
7. Client Custom Services
8. International Services

1. Quality instructors/consultants. We are affiliated with thousands of experienced, veteran trainers with proven track records to draw from for both long-term projects or for individual courses. Many of our seasoned veterans have extensive real world experience, as well as college degrees and multiple certifications in the field.

2. Value Based Fees. We believe our value based pricing should reflect the value you wish to receive and be delivered by the value based facilitator that best meets your investment criteria. We work diligently to negotiate the appropriate value based pricing from our trainers and pass those savings along to our clients, frequently using “tiered” pricing strategies designed to support your student/employee enrollment requirements for your class. We have certified trainers globally and in all fifty states and Canada we often find trainers local, and sometimes they are within a drivable distance to the assignment, thereby keeping total training costs lower.

3. Knowledgeable staff. Our staff cumulatively has over 60 years of experience in supporting both large projects and individual classes. The principals are both active in the business and provide mentoring to the other project managers within TTI and guarantee that all members of the company provide the same quality service.

4. Dedicated service. In 2015 TTI supported over 800 days of training and consulting support every month. Due to our Human Capital resources we can provide our existing clients and new clients with outstanding facilitators that will apply the same ethos of dedicated service to your organization.

5. Reliable and responsive service. TechnoTraining, Inc. will assign a full time account manager(s) to support your Human Capital requirement. If required we will assign additional resources as back-up to support additional services that are in demand. The account manager(s) will handle every aspect of an assignment, including travel arrangements, if desired.

6. Facility services. If requested, TechnoTraining will also obtain classroom rental space, and classroom and quality control assessment.

7. Client Custom Services. TechnoTraining can support our clients in the acquisition of alternative courseware, as well as customized courseware and curriculum development services.

8. International Services. TechnoTraining has built a Human Capital Pool that is strong with our International Clients. This pool is particularly strong in the UK, Germany, and India. We also have trainers who are competent in many languages and do have a number of instructors who are strong in Spanish and French. We also have an on-site office presence established in the United Kingdom (Axbridge, England) to better serve our overseas business partners.

Corporate Biographical Information

Encl (1)

Richard Drehoff, President of TechnoTraining, Inc., also manages several major corporate accounts and provides business management including marketing, planning, financial and quality control. Mr. Drehoff has an undergraduate degree from the U.S. Naval Academy with emphasis in Management Technologies and an MBA from Old Dominion University with a concentration in Information Systems. He is a critical member of the team in helping to screen and select the best-qualified trainers and consultants for our projects. Rich has also completed a highly successful career in Supply Logistics in the U.S. Navy, having "early" retired as a Lieutenant Commander. He is a native of Baltimore, Maryland.
rdrehoff@technotraining.net

John Nogosek, Vice-President of TechnoTraining, Inc., also manages several major corporate accounts and provides business management including marketing, planning, financial and quality control. He has successfully planned and implemented several boot camp sessions, as well as supported both major and small accounts for over thirteen years. Mr. Nogosek possesses an undergraduate business degree from Marquette University and a MBA from Temple University with emphasis in Finance and Marketing. John has already completed a highly successful career in Supply Logistics in the U.S. Navy, having retired as a Captain. His last active duty assignment was as the Executive Officer, Fleet & Industrial Supply Center, Norfolk, VA. He is a native of Elmhurst, Illinois (suburb of Chicago).
jnogosek@technotraining.net

John Lipscomb, Business Development Manager, whose primary focus is to work with both corporate and governmental accounts in satisfying their on-going employee training needs. John has over 30 years of sales and marketing experience and a very direct business philosophy that is based on Customer Focused Selling. He designs and negotiates Training Service Agreements customized to meet specific client training needs, timelines, and budgets. John is a graduate of The Pamplin College of Business at Virginia Tech (Go Hokies!) and has been a lifelong resident of Virginia Beach, Virginia.
jlipscomb@technotraining.net

Michele Simmons, Technical Training Manager, manages multiple corporate accounts, focusing on providing each client with the best solution for their needs. She graduated from Virginia Tech with a double Major in Finance and Management. Michele is a Native of Virginia Beach. She enjoys spending her down time on the beach or on the boat.
msimmons@technotraining.net

Del Weatherhead is a Contract Sales Representative for TechnoTraining. Del has many years of experience in both business and retail ranging from managing to ownership. She has managed to excel in whatever endeavor is required in order to complete the job. Whether it be creating new accounts, sourcing the right people for the position, or serving customer's needs, she puts all her efforts into the task. Her goals are to make things work with all involved in agreement of both the process and the outcome. The long term outlook for both the company and the clients are the main objectives of building a long term profitable and mutually satisfying relationship. She and her family reside in Ontario, Canada.
dweatherhead@technotraining.net

Maria Combs responsibilities are focused on Business Development, and growing our base business. She is a graduate of Old Dominion University where she received her degree in Economics and Marketing, and she has a solid background in Business Development in both Product and Service selling.
mcombs@technotraining.net

TechnoTraining, Inc Support Staff:

Kathy Hyypa manages the Company's accounting department, and is responsible for the preparation of company's financial reports, as well as payroll, accounts payables and receivables. She holds an undergraduate degree from James Madison University with an emphasis in Business Administration. Kathy spent the first ten years of her career working in the D.C area in Contracts Administration and Accounting with several Government Contracting companies. Having also run her own business in Colorado for a number of years, Kathy has a wealth of accounting knowledge and experience. She is a native of Arlington, VA.

khyypa@technotraining.net

Jennifer (Jenn) Hickey works in the Company's account payable and receivables department. She holds an Associate's Degree from Burlington County College, New Jersey and has taken numerous additional accounting courses at the University of Maryland. Jenn has acquired significant "hands on" accounting experience having worked for several companies during her professional career. She is married to a Naval Aviator and is a native of Medford, New Jersey.

jhickey@technotraining.net

Leslie Drehoff works in the Company's account payable and receivables department. She holds a Bachelor of Arts degree from Randolph Macon College and has been with the company since its inception in 1999. She is a native of Chesapeake, Virginia. In her spare time she enjoys spending time with her husband, Rich, and their three sons.

ldrehoff@technotraining.net

Shelly Salinas works as an Administrative Assistant supporting all departments at TechnoTraining, Inc., including working with both Clients and Instructors to achieve their individual needs. Shelly grew up in Arkansas, but has followed her husband from coast to coast with his military career before finally settling in Virginia Beach. She holds an Associate's degree from Southeast Arkansas College with a double major in Business Administration, and Accounting. Shelly enjoys paper crafting and spending time at the beach with her husband and two small dogs.

ssalinas@technotraining.net

Anthony Jannone manages the network and provides security and technical services for the company's network. He is constantly learning about the latest problems and is proactive in countering them. Anthony graduated from Centura College with an Associate's degree in Computer Network Management with plans to further education, as well as a lifetime of experience with computer technology. Anthony enjoys cooking and home improvement projects as well as other hobbies that involve electronics.

ajannone@technotraining.net

Contract Instructors. Of critical importance is our ability to select and manage highly qualified instructor resources. To support corporate programs, our company relies on a network of over five thousand instructors located in every major city throughout the country. Generally, our instructors have a four-year college degree with a minimum of five years of training and practical experience.
